## **EDUCATION**

**Washington University in St Louis**  
Ph.D. in Political Science

*Aug 2026 – May 2031 (Expected)*

**The Philipp University of Marburg**

Virtual Exchange Program: Machine Learning for Remote Sensing & Climatology  
Grade: 14/15 “Outstanding Achievement”

*April 2025 – Aug 2025*

**Cairo University – Faculty of Economics and Political Science**

B.Sc. in Political Science & Minor in Statistics

Cumulative GPA: 3.55/4 (Ranked 7<sup>th</sup> in the Political Science major)

*Oct 2021 – July 2025*

**The University of Chicago**

Sawiris Scholars Scholarship Program: Data Science & Quantitative Social Science

Cumulative GPA: 3.87/4

*Sep 2023 – May 2024*

## **WORKING PAPERS**

**Can Individuals Be Inoculated against Fake News: An Experimental Study on a Sample of Egyptian Trend Engagers on X**

*Mazen Hassan, Mohamed Sabry Amer, Asmaa Abdelkhalek, Sarah Mansour & Zeyad Kelani*

- Accepted for presentation at the Economic Research Forum (ERF) 32rd Annual Conference 2026
- Presented at the Center for the Study of African Economies at Oxford University 2026
- Presented at the 10<sup>th</sup> Social Science and Humanities Conference at the Arab Center for Research & Policy Studies 2025
- Presented at the FEPS-AUC Joint Seminar in Political Science 2025

**Doing Online Fieldwork on Social Media Platforms in the Arab World: Challenges and Mitigating Strategies (R&R at Middle East Law & Governance)**

*Asmaa Abdelkhalek, Mohamed Sabry Amer, Mazen Hassan, Sarah Mansour & Zeyad Kelani*

## **WORK IN PROGRESS**

**Jordanian Parliamentary Elections Data at the Precinct Level, 2013-2024**, with Elizabeth Parker-Magyar (Dataset).

## **RESEARCH EXPERIENCE**

**Abdulatif Jameel Poverty Action Lab (MENA)**

*Research Associate*

Cairo, EG

September 2025 – April 2026

- Contributed to an RCT that aims to maximize the impact of aid for Palestinian refugees
- Developed LLM solutions to automate survey data cleaning tasks and conduct text analysis
- Cleaned, managed, and analyzed large datasets using Stata and Python
- Coordinated with field operations teams to streamline workflows and uphold rigorous data quality standards

**Elizabeth (Biff) Parker-Magyar**

*Research Assistant & Co-author | Yale University*

Remote

July 2025 – Present

- Developed a machine learning model to classify contentious events in a Jordanian events dataset
- Scraped 1M+ news articles from major media outlets in Jordan to construct a reliable textual corpus
- Contributed to data cleaning and validation processes to ensure high-quality model training

**Soyoung Lee**

*Research Assistant | Yale University*

Remote

September 2025 – October 2025

- Conducted a meta-analysis of how territorial economic value affects support for territorial disputes
- Identified research papers in top journals that match the selection criteria
- Replicated research papers using R to identify the marginal effect of the various variables of interest

## **Elizabeth (Biff) Parker-Magyar**

*Research Assistant & Co-author | Harvard University*

Remote

October 2024 – July 2025

- Digitized electoral returns data in Jordan at various levels of aggregation across years using Python
- Developed Python web-scraping scripts using Selenium to automate data collection
- Cleaned and validated datasets to ensure accuracy and reliability
- Managed project data and maintained detailed documentation for workflows and processes

## **Molly Offer-Westort**

*Research Assistant | The University of Chicago*

Chicago, IL

February 2024 – May 2024

- Analyzed data to uncover trends in the Immigration and Customs Enforcement (ICE) detention practices
- Produced a comprehensive report with clear visualizations to effectively communicate key findings
- Engaged with stakeholders at The Legal Aid Society to refine and tailor the analysis to their needs

## **WORK EXPERIENCE**

### **The Central Bank of Egypt**

*Data Science Intern*

Cairo, EG

August 2024 – September 2024

- Developed a predictive time-series model to estimate Egypt's GDP using Google Trends as alternative data
- Researched GDP nowcasting case studies from central banks to identify relevant models and data sources
- Executed feature selection and hyperparameter tuning using backtesting to optimize model performance
- Presented research findings and model results to the data science team

## **PROFESSIONAL DEVELOPMENT**

### **BRICS Summer School**

*Participant*

Johannesburg, South Africa

Summer 2024

### **UChicago Climate & Energy Policy Trek**

*Participant*

Washington, D.C.

Winter 2023

## **AWARDS AND HONORS**

- **MO:VE Virtual Exchange Scholarship**, The Philipp University of Marburg — Summer 2025
- **Sawiris Scholar Scholarship**, The University of Chicago — 2023–2024  
Merit-based scholarship for academic excellence and leadership
- **Class Valedictorian**, Misr Language Schools (National Division) — 2020–2021

## **LANGUAGES, SOFTWARE & TOOLS**

- **Programming Languages & Statistical Software:** Python, R & Stata
- **Survey Tools:** Qualtrics, SurveyCTO & SurveyMonkey
- **Others:** GitHub, LaTeX, SQL
