EDUCATION

Washington University in St Louis, St. Louis, MO — Aug 2026 – May 2031 (Expected)

- Ph.D. in Political Science

The Philipp University of Marburg, Marburg, Germany — April 2025 – Aug 2025

- Virtual Exchange Program: Machine Learning for Remote Sensing & Climatology
- Grade: 14/15 "Outstanding Achievement"

Cairo University, Faculty of Economics & Political Science, Egypt — Oct 2021 – July 2025

- B.Sc. in Political Science & Minor in Statistics
- Cumulative GPA: 3.55/4 (Ranked 7th in the Political Science major)

The University of Chicago, Chicago, IL — Sep 2023 – May 2024

- Sawiris Scholars Scholarship Program: Data Science & Quantitative Social Science
- Cumulative GPA: 3.87/4

PUBLICATIONS

1. "Doing Online Fieldwork on Social Media Platforms in the Arab World: Challenges and Mitigating Strategies," with Asmaa Abdelkhalek, Mazen Hassan, Sarah Mansour & Zeyad Kelani, *Middle East Law and Governance* (2026): 1–29. https://doi.org/10.1163/18763375-bja10026

WORKING PAPERS

1. "Can Individuals Be Inoculated against Fake News: An Experimental Study on a Sample of Egyptian Trend Engagers on X," with Mazen Hassan, Asmaa Abdelkhalek, Sarah Mansour & Zeyad Kelani

IN PROGRESS

1. "Aggregation of Unstructured Data with LLMs," with Elizabeth Parker-Magyar, Killian Clarke, and Noah Darwich
2. "Jordanian Parliamentary Elections Data at the Precinct Level, 2013–2024," with Elizabeth Parker-Magyar (Dataset)
3. "AI Publication Bias," with Bowen Damask and Jacob Montgomery
4. "Anonymity and Survey Compensation Methods," with Jacob Montgomery

RESEARCH EXPERIENCE

Abdulatif Jameel Poverty Action Lab (MENA), Cairo, EG — September 2025 – April 2026
Research Associate

- Contributed to an RCT that aims to maximize the impact of aid for Palestinian refugees
- Developed LLM solutions to automate survey data cleaning tasks and conduct text analysis
- Cleaned, managed, and analyzed large datasets using Stata and Python
- Coordinated with field operations teams to streamline workflows and uphold rigorous data quality standards

Elizabeth (Biff) Parker-Magyar, Remote — July 2025 – Present
Research Assistant & Co-author | Yale University

- Developed a machine learning model to classify contentious events in a Jordanian events dataset
- Scraped 1M+ news articles from major media outlets in Jordan to construct a reliable textual corpus
- Contributed to data cleaning and validation processes to ensure high-quality model training

Soyoung Lee, Remote — September 2025 – October 2025
Research Assistant | Yale University

- Conducted a meta-analysis of how territorial economic value affects support for territorial disputes
- Identified research papers in top journals that match the selection criteria
- Replicated research papers using R to identify the marginal effect of the various variables of interest

Elizabeth (Biff) Parker-Magyar, Remote — October 2024 – July 2025
Research Assistant & Co-author | Harvard University

- Digitized electoral returns data in Jordan at various levels of aggregation across years using Python
- Developed Python web-scraping scripts using Selenium to automate data collection
- Cleaned and validated datasets to ensure accuracy and reliability
- Managed project data and maintained detailed documentation for workflows and processes

Molly Offer-Westort, Chicago, IL — February 2024 – May 2024
Research Assistant | The University of Chicago

- Analyzed data to uncover trends in Immigration and Customs Enforcement (ICE) detention practices
- Produced a comprehensive report with clear visualizations to effectively communicate key findings
- Engaged with stakeholders at The Legal Aid Society to refine and tailor the analysis to their needs

Work Experience

The Central Bank of Egypt, Cairo, EG — August 2024 – September 2024
Data Science Intern

- Developed a predictive time-series model to estimate Egypt's GDP using Google Trends as alternative data
- Researched GDP nowcasting case studies from central banks to identify relevant models and data sources
- Executed feature selection and hyperparameter tuning using backtesting to optimize model performance
- Presented research findings and model results to the data science team

Grants and Awards

- **MAPOR Travel Grant**, $325, Midwest Association for Political Research, 2026

Skills

- **Programming Languages & Statistical Software:** Python, R & Stata
- **Survey Tools:** Qualtrics, SurveyCTO & SurveyMonkey
- **Others:** Git/GitHub, LaTeX, SQL
- **Languages:** Arabic (Native), English (Fluent)
